# Discrete Mathematics. Labs.

## L1.

HR EXCELLENCE IN RESEARCH

WROCLAW UNIVERSITY OF SCIENCE AND TECHNOLOGY

- Preferable programming language is Python
- MIT Python course (183) 6.0001 Introduction to Computer Science and Programming in Python. Fall 2016 - YouTube
- Please keep your code in github -- it is a preferable option as well. Please add **sergii-trotskyi** (yes, it`s me :) )
- Familiarize yourself with git documentation Git - Reference
- It may not be essential for small labs, but it is important for your future.
- Prepare a report for each problem set.
- Submit a Problem Set before a deadline!

# Python Packages

**NetworkX**

**pandas**

**itertools**

**SymPy**
